DETAILED ACTION

Response to Arguments

1. In giving a reason for allowance, an examiner cites the limitation within the independent claim that makes the claim allowable. As, claims 2-8 are dependent on claim 1; there is no need to address each and every claim as suggested by the arguments.

Allowable Subject Matter

2. Claims 1-8 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The invention relates to a method for increasing the data transmission speed by converting the maximum quantity of data into an inter system link protocol and transmitting the inter system link protocol frame of maximum size to a base station controller as much as possible.

It is noted that the closest prior art of record, Rathonyi et al (US 6, 359, 877), discloses a communication system comprising an MSC (mobile switching center) and BSC (base station controller), a method and apparatus designed to minimize overhead by adapting the packet size on transmission based on the transmission rate and/or the throughput. However, Rathonyi fails to disclose or render obvious the underlined limitations as claimed and disclosed below:

The invention is allowable over the prior art of record since the cited references taken individually or in combination fails to particularly disclose “counting the total number of bytes included in a frame relay, and determining if the bytes counted are larger than the bytes necessary to generate an inter system link protocol frame of maximum size”. Furthermore, the prior art of record fails to show or suggest “generating and transmitting the inter system link protocol frame of maximum size to a BSC, and determining if the remaining bytes included in the frame relay are larger than that which is required to generate an inter system link protocol frame of maximum size”.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
